Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 November 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Response to Arguments

1. In view of the Appeal Brief filed on 11/13/06, PROSECUTION IS HEREBY REOPENED. The new Office Action is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haussner in view of Brower (3,345,732) (as evidenced by Magnetopuls).

Haussner discloses a glow plug (Figures 1-6) comprising a rod-shaped heating element 1, an electrically insulated cylindrical carrier ring 3 for attachment to the heating element, an electrically conductive, metal contact sleeve 4 that is attached to the heating rod 1, a tubular casing 7 for surrounding the rod-shaped heating element, and the cylinder ring 3 has an external diameter which is greater than that of the sleeve 4, the rod is pressed into the carrier ring 3. However, Haussner does not disclose a magnetic forming process. Brower discloses a magnetic forming process in joining an outer member – tube 19 with an inner member-rod 21 (Fig. 1 and col. 16-59).

It would have been obvious to one having ordinary skill in the art to modify Haussner's invention to include a magnetic forming process as taught by Brower in order to attach the carrier ring to the heating element, because the prior art is reasonably pertinent to the particular problem of eliminating any surface damage and thermal effect to the glow plug structure, in accordance with MPEP 2141.01(a), and as evidenced by Magnetopuls (page 2, lines 1-2) this method is used also with parts that are to be pressed onto one another, therefore Hausnner in view of Browser capable of so perform.

Response to Arguments

5. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.
